

SUSTAINABLE PROCUREMENT POLICY

Thornton Sports is committed to the purchase of goods, materials and services that minimise or reduce the impact of its activities on the local and global environment. Employees are committed to achieving the aims and principles of this policy, which will contribute to the economic and environmental well being.

Our Aims are to:

1. Re-Use, Repair and Recycle

The company will re-use, repair or recycle products and materials before purchasing replacements where ever possible and will encourage suppliers to quote for sustainable products and materials when these are required.

2. Energy

The company will reduce consumption of energy and will purchase energy from renewable sources where ever possible.

3. Fuel

The company will operate vehicles with technologically advanced diesel engines as a first choice.

4. Chemical and Aerosols

The company will purchase trigger sprays and biodegradable chemicals where ever possible.

5. Electrical Goods and Appliances

The company will use low energy light bulbs as a first choice and purchase the most energy efficient appliances available.

6. Timber and Furniture
