

## Multi Use Games Areas (MUGAs)

**Thornton Sports have over 35 years experience in the design, installation, maintenance and renovation of multi use games areas.**

Synthetic surfaces for MUGAs are perfect for sports such as tennis, netball, 5-a-side, hockey or general training.

Our extensive product range covers a variety of surfaces such as artificial grass, bitumen macadam and polymeric.

All of our surfaces are designed to suit every level of ability and budget.

Thornton Sports' artificial grass is a British product and is manufactured in-house at our headquarters based in Lancashire. Surfaces are manufactured to BSEN ISO 9002:1994 standards and hold appropriate sporting certifications.

There are various options for perimeter fencing and floodlighting, ranging from recreational play through to championship standard. In-situ shock pads are also available.

### Thornton Sports MUGAs offer you:

- Accredited British-made synthetic grass, manufactured in-house since 1981.
- A variety of surfaces suitable for tennis, netball, 5-a-side, hockey or general training.
- Floodlighting and fencing suitable for recreational play through to championship standard.
