

13 No. SYNTHETIC SPORTS PITCHES IN WIGAN

THE PROJECT

G Thornton (Contracts) Ltd are pleased to have been chosen to work in partnership with Wigan MBC and NPS NW Ltd as lead contractors in the design and construction of 13 No. synthetic grass sports pitches on school sites within the borough.

CONSTRUCTION

The pitches surfaced in our *Stadium 25* will provide excellent facilities for schools and local communities within the borough and will be used for a variety of sports including football, hockey, 5-a-side football and recreational tennis.

Our **Stadium 25 sand** filled synthetic grass sports pitch is popular in school environments due to its multi sports options. The choice of yarn and pile heights is dependent on the sports to be played on the surface and budget.

The School have indicated how pleased they are to have this excellent facility at their disposal. They have also commented most favourably on the negligible intrusion the construction of the pitch has had on the day to day running of the school.
