

equipment anchors

anchors

For portable football, hockey goals and other portable sports posts

Indoor anchors

For sports hall floors or walls

Risk assessment

It is essential to conduct a risk assessment of the site to determine suitability for type of anchorage to be used.

Consideration should be given to:

- Equipment specification
- Position when used in play
- Flooring type
- Risk of additional hazard
- Correct number of fixing points or weight
- Storage location

Floor/wall strap anchor

Recommended: minimum 2 No. anchors per single sports post. Heavy duty nylon strap fitted to floor or wall plate.

Set of 4

ISE-F0331

Floor fixed chain anchor

Recommended: minimum 2 No. anchors per single sports post.

Suitable for mini soccer, five-a-side, handball and hockey. Complete with eyebolt, 30cm plastic covered chain, carabine clip and 'U' type bracket to fit side frame up to 43mm diameter.

Must be installed in the floor.

For solid floors - floor socket length: 160mm

ISE-F0321

For suspended floors - floor socket length: 210mm

ISE-F0323

Wall fixed chain anchor

Recommended: minimum 2 No. anchors per single sports post.

Only suitable for wall fixing.

Set comprises 100mm rawlbolt, eyebolt, 30cm plastic covered chain, carabine clip and 'U' type bracket to fit side frame of goal max 43mm diameter.

ISE-FO325

Indoor counterbalance anchor weight

Required anchors for various sports. Quantities are per single sports post.

Senior and Junior Football Goals	6 No.
Mini Soccer/Futsal/9v9 (Steel/Alu)	6 No.
Mini Soccer/Futsal (Plastic)	2 No.
Five-a-side football	4 No.
Hockey	10 No.

As standard outdoor counterbalance weight but with rubber pad on base. ISE-F0327

Floor anchors for general sports posts & gymnastics equipment

Recommended to be fitted by specialist installers.

General sports posts

Suitable for all floor types, the stainless steel plug has a spring returned dust cap.

Supply and install to:

Solid floors - floor socket complete with 'T' bar, minimum depth 150mm. ISE-F0326

Suspended floors - floor socket complete with 'T' bar, variable depth. ISE-F0328

Gymnastic equipment

Flip-up anchors, 48mm diameter stainless steel with integral dust cover.

Supply and install into:

Solid floors - floor socket, minimum 140mm depth. ISE-F0329

Suspended floors - floor socket variable, but maximum depth 185mm. ISE-F0330

Floor/wall strap anchor

Floor fixed chain anchor

Standard turf anchor

Wall fixed chain anchor

Indoor counterbalance anchor weight

Gymnastic equipment

Our goal... Your safety!

To conform to British/European Safety Standards and FA guidelines, anchors must be fitted to all sizes and types of freestanding sports posts, unless the specification is for integrally weighted posts.

Outdoor anchors For natural and synthetic surfaces (unless otherwise stated)

Risk assessment

It is essential to conduct a risk assessment of the site to determine suitability for type of anchorage to be used.

Consideration should given to:

- Surface type
- Variable soil conditions
- Risk of causing additional hazard
- Correct number or amount of stabilising weight required

Preferred options:

- Attachment to permanent in ground anchorage
- Attachment to fixed surround facing
- Attachment of portable counterbalance weights

Flip up style anchor socket

Recommended: minimum 2 No. anchors.
Specially designed for installation with synthetic surfaces and tarmac surfaces.

Flips up to enable easy attachment of carbine clip and chain. Flush fitting lid for safety when not in use. Size: Top/Bottom plate 100mm x 100mm, height 330mm. Must be installed into 350mm cube of concrete. **OSE-F1211**

Fence type anchor

Recommended: minimum 2 No. anchors.
Complete with eyebolt. 2 x carbine clips and 3m length of chain. Suitable for all sports posts. For attaching to surround fence or use with OSE-F1211. **OSE-F1213**

Standard turf anchor

For natural grass and synthetic surfaces.

Recommended: minimum 2 No. anchors.
Complete with galvanised chain carbine clip and 'U' type bracket. Suitable for either natural grass or for concreting below synthetic surfaces. To fit up to 43mm diameter back tubes. Full installation instructions included. Set of 4 **OSE-F1202**

Heavy duty turf anchor

Recommended: minimum 2 No. anchors.
Must be used for hockey goals on soft ground. Heavy duty version of standard turf anchor. Complete with anchor chain and clip for attachment to back rails.

Set of 2 **OSE-F1204**

Tarmac type ground anchor

Recommended: minimum 2 No. anchors.
Specification as standard anchor but with no stabilising bar, for installing directly through tarmac surface. Complete with galvanised chain, carbine clip and 'U' type bracket. Designed to be installed below ground level. To fit up to 43mm diameter back tube.

Set of 4 **OSE-F1208**

Spira lock anchor kits

For ground fixing GTC Provincial Team Shelters (OSE-A0656 & OSE-A0658) only.

For 2.5m Shelter (OSE-A0656)
Set of 4 **OSE-A0661**

For 4m Shelter (OSE-A0658)
Set of 5 **OSE-A0662**

U-peg ground anchor

Recommended: minimum 2 No. anchors.
For natural grass surfaces only. A risk assessment is required to evaluate suitability of ground conditions. Zinc plated steel U-peg, 450mm long x 10mm diameter. For insertion over the rear ground stabilising bar and into the ground. Sets of 4 **OSE-F1210**

Standard outdoor counterbalance anchor weight

Senior & Junior football goals	6 No.
Mini soccer/futsal/9v9 (Steel/Alu)	6 No.
Mini soccer/futsal (plastic)	2 No.
Five-a-side football	4 No.
Hockey	10 No.

Comprises a 17kg handbag style portable weight complete with covered chain, carbine clip and 'U' type bracket to fit up to 43mm diameter back tubes. **OSE-F1206**
