

ATHLETICS TRACK MAINTENANCE PROGRAM – “AQUA TRACK PRO”

Protech AllWeather Limited is dedicated to maintaining & servicing all-weather sports surfaces across the UK. Working in conjunction with our sister company **Thornton Sports** we have developed a complete track cleaning and maintenance programme. “The Aqua Track Pro”.

The Aqua Track Pro system tackles all problems that can arise with athletics tracks giving you a “totally refurbished track”. **Protech AllWeather’s** highly skilled technicians will transform a dull working complex back into a high quality, fully operational athletics track complex with minimum disruption.

The Aqua Track Pro system has been designed to give the complete maintenance package to your athletics track

Clearing out & Cleaning Drainage Channels

Refurbishing Steeple Jump Pits

How the Aqua Track Pro System works

The Aqua Track Pro system penetrates the deepest of dirt that lies in the porous texture of the track, thus lifting the dirt away from the track through its vacuum. Using our specialist machinery we are able to cleanse your track “back to life”. The results from the Aqua Track Pro process gives back a high quality professional look to your track & enhances the tracks functional factors.

PROTECH ALLWEATHER OFFERS THE FOLLOWING SERVICES IN TRACK MAINTENANCE

- **A FULL refurbishment of the athletics track.** This includes; a full track cleanse - all run offs, long jumps, high jump runs, etc. Also included is the cleaning out of all drainage channels.
- **Specialist works on other areas of the complex that may require cleaning such as; hurdles, steeple chase pits etc.**
- **We also offer an annual maintenance package.**

All service & maintenance programmes are developed in consultation with the client to ensure that their individual requirements are taken into consideration. Our highly trained technicians are always happy to help with your enquiries. For further information email info@thorntonsports.co.uk or call 01162 886782
