Synthetic Pitch Equipment

GTC Sports provide a full delivery and assembly service for synthetic pitch equipment and portable equipment which can be used on other surfaces. Our skilled installation team can deliver and erect any product from our freestanding range. The team can also offer anchorage and maintenance advice whilst on site.

Please contact us for a quotation.

GTC Sports offers a wide range of aluminium equipment which is ideally suited to synthetic surfaces. Aluminium equipment is strong, non-rusting, lightweight and under normal use will not damage the surface.

Please see our integrally weighted goals for football and hockey which have been specifically designed to be used on synthetic surfaces.

Our Rolla Goals for football are also a uniquely designed goal which folds against the fence line of a synthetic pitch. Rolla Goals are available in most sizes across the football range, senior, mini soccer, five-a-side etc.

Safety and maintenance information is supplied with all products. If you require further information please request the 'Play It Safe' information pack.
